

Huntington: The Columbus-based company saw a 67% increase in net income, which came in at \$1.2 billion for 2017. Earnings per common share for the year were \$1, up 43% from the prior year.

Return on average assets for year ended Dec. 31 was 1.17%, while return on average tangible common equity was 15.7%, the bank reported. Total revenue increased 22% compared to the previous year.

The results exclude about \$152 million pretax of FirstMerit acquisition-related expenses, or \$0.09 per common share after tax, and an estimated tax benefit of \$123 million, or \$0.11 per common share, related to federal tax reforms enacted in December.

"We achieved our long-term financial goals for Return on Tangible Common Equity and Efficiency Ratio on a GAAP basis for the first time," chairman, president and CEO Steve Steinour said of the final quarter of the year. "In fact, during the fourth quarter, we achieved all five of our long-term financial goals. In addition, we recently began the strategic planning process that later this year will yield new long-term financial goals for the company."

Community Investors Bancorp: The parent company of First Federal Community Bank of Bucyrus reported net earnings of \$561,000, or \$0.71 per share for the second half of 2017. The total represents a \$45.3% increase from the same period in 2016.

Total assets as of Dec. 31 were \$145 million, which is an increase of \$1.6 million from June 30, the company announced. Meanwhile, investments increased by \$500,000 and the allowance for loan loss increased by \$135,000.

First Financial: For the three months ended Dec. 31, the company reported net income of \$24.8 million, or \$0.40 per common share, which is unchanged from the previous quarter.

Return on average assets for the fourth quarter was 1.13% while return on average tangible common equity was 13.85%.

In 2017, the company had earnings per diluted share of \$1.56 compared to \$1.43 for 2016, it reported.

Peoples Bancorp: The company posted a record full-year net income of \$38.5 million, or \$2.10 per diluted share. In the fourth quarter, the company reported net income of \$9 million, or \$0.49 per share.

"Earnings per diluted common share for the full year of 2017 were positively impacted by \$0.10 due to gains on sales of bank equity investment securities, and negatively impacted by \$0.02 due to non-core charges and \$0.05 due to the recently enacted Tax Cuts and Jobs Act," according to a company release.

Arts Award: Heartland Bank and the J.M. Smucker Company are set to be recognized at the 2018 Arts Day & Governor's Awards for the Arts in Ohio ceremony in May.

They're among nine winners of the governor's awards for supporting the arts. Heartland Bank is to be recognized in the category of small businesses that support the arts and Smucker's will take home the award as a large company that supports the arts.

"The 2018 Governor's Awards winners are true innovators and leaders in their communities. They exemplify Ohio's creative and forward-thinking spirit. On behalf of the Ohio Arts Council, I congratulate this year's group of individuals, organizations, and businesses on earning our state's most prestigious artistic and cultural achievement," said Donna S. Collins, executive director of the Ohio Arts Council.

Gongwer Unveils Text Alerts for Bill Tracking, Breaking News, Other Messages

Gongwer News Service today launched new services that allow subscribers to receive bill tracking alerts, breaking news updates and other key Gongwer products via text message.

To activate text alerts, subscribers should log in to their accounts, click on their name in the banner and select Update Profile. Next, enter your mobile number and carrier, and select the alerts and messages you want to receive via text. Once your preferences have been set, click the Update button at the bottom of the box.

The system allows subscribers to request text notifications regarding the publication of the Gongwer *Ohio Report*, breaking news updates, media clips and legislative floor reports. Subscribers can also request real-time bill tracking alerts or a daily summary of activities on all bills that are being tracked.

Alert preferences can be changed at any time.

Due to limitations on the size of text messages, all text-based alerts will include a summary of the message received and a link to the full content of the message.

The new services are available to subscribers at no additional cost.

All Gongwer accounts include access to the leading bill tracking system that offers real-time alerts on legislation of interest. Subscribers can track by bill number, keyword, sponsor and Revised Code section and can also receive alerts based on legislative activity, committee scheduling and subject area. All bill tracking features, which include customizable bill status reports that can be shared with members and clients, are available on Gongwer's Bill Tracking page.

HOUSE SPEAKER'S APPOINTMENTS

Energy and Natural Resources Committee: Remove Rep. Vitale, effective January 22, 2018.

COMMITTEE HEARINGS

Finance

HB 281 **BROADBAND EXPANSION (Carfagna, R.)** To establish the residential broadband expansion program within the Development Services Agency to award matching grants for last mile broadband expansion in municipal corporations and townships and to make an appropriation. **(REPORTED-SUBSTITUTE (No testimony); 5th Hearing-All testimony-Possible substitute & vote)**

The bill was reported following the acceptance of a substitute version that included a handful of substantive changes along with other updates that sponsor **Rep. Rick Carfagna** (R-Westerville) described as dealing mostly with "semantics" and cleanup language to avoid redundancies. He said the Legislative Service Commission **Comparison Document** on the sub bill covers those changes as well as a series of amendments accepted at the committee's last hearing.

As explained by the sponsor, the more significant changes incorporated Tuesday include:

- Allowing local governments that decide to fill funding gaps on their own to avoid seeking county approval.
- The creation of a "challenge process" for requests-for-proposals with a five-day period for providers to question guidelines.
- Language dealing with the treatment of proposals that allow for the redaction of "trade secrets."
- Providing for alternative payment terms rather than mandating that providers do not get fully paid until the projects are completed.
- Removal of regulations of rates and pricing.
- Clarifying that providers are responsible for upkeep upon completion of the infrastructure.
- Clarifying that the assessments provided for in the legislation only apply to specific broadband projects.

Mr. Carfagna told the panel that 55 interested parties have been kept informed throughout the process of the more recent changes and there were no objections raised regarding the sub bill. "We're doing our best to keep people abreast of what we're trying to accomplish here," he said.

In answering questions from the panel, the sponsor said: the bill contains adequate protections regarding assessments and the process of determining unserved areas; and the substitute's elimination of language specifying monthly usage and "roundtrip latency" standards was aimed at avoiding any "micromanaging" of service providers.

The sponsor said in an interview that the bill provides for the Development Services Agency to use \$2 million every biennium from unencumbered funds, language that required the bill's approval by the Finance Committee.

Among members present for the vote, only **Rep. Jim Butler** (R-Oakwood) and **Rep. Mark Romanchuk** (R-Mansfield) were opposed to the report.

The latter lawmaker in an interview cited a 10-megabyte download standard, saying he didn't want to be paying for "old technology" and noting that satellite providers already exceed such speeds.

Financial Institutions, Housing & Urban Development

HB 182 **DEBT ADJUSTING** (Seitz, B.) Regarding debt adjusting. (**REPORTED**; 5th Hearing-All testimony-Possible vote)

Before the bill was reported, Betty Montgomery, an attorney representing the American Fair Credit Council, told the panel that it will not allow for the unauthorized practice of law.

"Case law - both within this state and at the United States Supreme Court - has given us some direction when trying to determine whether or not certain behaviors constitute the practice of law," the former attorney general said.

Ms. Montgomery said the legislation will allow debt settlement companies to operate in Ohio the same way non-profit credit counseling agencies have for decades - with no objection from the bar, she added.

"This bill provides an opportunity for both clarity and fairness: Should this bill pass and the industry begins engaging with business in Ohio, it undoubtedly will be challenged once again," she said. "The industry will then have an opportunity to have full hearings, presenting persuasive evidence and argument to the Ohio Supreme Court, the proper forum for clarification regarding whether or not the debt settlement industry is engaged in the unauthorized practice of law."

The bill was reported in an 8-5 vote, with Rep. Jim Hughes (R-Columbus) joining Democrats on the panel in opposition.

HB 386 **CREDIT FREEZES** (Henne, M., Kelly, B.) To modify the fees that a credit reporting agency can charge in relation to a credit report freeze. (**CONTINUED** (No testimony); 4th Hearing-All testimony)

HB 390 **FORCIBLE ENTRY** (Merrin, D.) To clarify how to calculate certain timelines under which a forcible entry and detainer action must occur. (**CONTINUED**; 4th Hearing-All testimony)

Dan Acton, government affairs director of the Ohio Real Estate Investors Association, said the measure is intended to standardize eviction laws throughout the state based on previous court rulings.

The legislation, he added, is needed because the calculation of days varies by county.

"Our investor members sometimes own property in multiple counties and the idea of attempting to interpret local laws for a legal action that should be consistent across the state is a recipe for failure and can lead to more complications for all parties involved," he said. Under the measure, for the purposes of eviction, calendar days would be counted instead of business days.

"In any other contract related to a property whether it is for utility services, taxes paid, mortgages, or insurance, the service provider, or the government counts calendar days. The calculation of days for eviction should not be any different," he said.

HB 432

STUDENT LOANS (Boggs, K., Kelly, B.) To require student loan servicers to be licensed by the Division of Financial Institutions and to create the position of student loan ombudsperson in the Division of Financial Institutions to provide assistance to student loan borrowers. H. B. No. 433 - Representatives Kelly, Brinkman. (CONTINUED; 1st Hearing-Sponsor)

Rep. Kristin Boggs (D-Columbus) said in sponsor testimony that student loan borrowers rarely have the opportunity to vet the company servicing their student loans.

"They are thrust into this relationship with a company that they did not necessarily agree to do business with, so the purpose of this bill is to prevent unscrupulous student loan servicing companies from taking advantage of student borrowers by misapplying payments or misrepresenting their practices," she said.

In addition to creating a student loan ombudsperson within the Department of Commerce, the bill would enhance oversight of student loan servicers operating in the state.

Fellow sponsoring **Rep. Brigid Kelly** (D-Cincinnati) said 11 other states have taken similar steps.

"We believe this bill will ensure student loan borrowers and their families receive levels of services and protection that are standard for other financial contracts, but not currently guaranteed under federal law for student loan servicers," she said.

"Notably, this legislation does not require banks or credit unions to obtain a license because similar federal regulations for these companies already exists. Our goal is to make the playing field even across the board, and make sure that Ohioans get the same level of services and protections regardless of who is servicing their student loans."

Asked by chairman **Rep. Jonathan Dever** (R-Cincinnati) about DOC's position on the bill, Rep. Boggs said those discussion have yet to take place.

HB 393

BRINE SALES (DeVitis, T., O'Brien, M.) To authorize a person to sell brine derived from an oil and gas operation that is processed as a commodity for use in surface application in deicing, dust suppression, and other applications. (CONTINUED-AMENDED; 3rd Hearing-All testimony-Possible vote)

Rep. Jay Edwards (R-Nelsonville) won support for an amendment that requires the collection of samples, rather than making the collection optional. The change, he said, is expected to move the Ohio Environmental Council from an opponent to an interested party. Melanie Houston of the Ohio Environmental Council Action Fund followed that action with interested party testimony. She said the amendment represents a big step, but the group is still concerned about metals and radioactive materials.

She said the group supports the goal of recycling oil and gas brine outside of injection, but raised concerns that it doesn't include a process that ensures protection of public health, safety and the environment.

To earn the group's support, she said lawmakers would either need to require satisfactory test results regarding radiological materials and heavy metals or establish a regular testing protocol by a lab equipped for those tests.

"We understand that this is a tall order," she said. "We understand that the company is a small business owner in northeast Ohio with a product that works well to treat ice and snow on our roads, and we appreciate the need for safe car travel throughout the state. We understand that there are competing public health priorities and that de-icing roads is essential to keep our communities safe and functioning throughout the winter months." "The OEC Action Fund understands that you also may prioritize the public safety goal of adding another deicing product to the market over the public safety goal of minimizing radiological and heavy metal content that is brought to the surface through resource extraction."

She also called on lawmakers to have the manufacturer demonstrate that the product is safe and is not radioactive.

"While we have heard about the efficacy of the product to treat ice and snow, we have not yet seen the lab analyses to demonstrate that there are not NORM or heavy metals present in the product," Ms. Houston added.

Rep. Dick Stein (R-Norwalk) asked whether the group is opposed to the current use of the product on some roads across the state.

Ms. Houston acknowledged that the product is being used, but said the authorization came from a divisional order rather than the enactment of law. She said passage of a bill could lead to much wider use, including sales for personal use.

Rep. David Leland (D-Columbus) asked how long the product has been in use in Ohio.

Ms. Houston said it dates to about 2004, when an order was issued by the chief of the Division of Oil & Gas. She told Mr. Leland she does not have any data about the condition of soil near where the product has been used, but said DNR may have that information.

Bill Rish of ToxStrategies lent support for the bill, telling the panel that Nature's Own and Duck Creek Energy asked him to consider whether the use of AquaSalina for deicing roads present significant ecological or health risks.

He said his research has shown that the product will not create unacceptable ecological or human health risks and has impacts that are much lower than the use of rock salt.

"I found that laboratory data demonstrate that the use of AquaSalina will not result in exceeding Ohio surface water criteria for protection of aquatic species or protection for agricultural use of surface water for any of the substances present in the product," he said. "I also found that laboratory data for the content of AquaSalina, when compared to my published study, show that AquaSalina will not result in risk to drinking water, even if an adult or child drinks from a shallow well near the location that AquaSalina is applied. In fact, I expect that this drinking water pathway is unlikely to exist."

That process included a review of third-party and independent certification agencies, as well as academic institutions and the Pennsylvania Department of Environmental Protection, he said, adding that the Pennsylvania-style brine has much higher radiological levels than AquaSalina.

Responding to questions, Mr. Rish said studies have shown that even a person who would be most exposed to the product from all potential channels would likely only reach 1/100th of a what would be considered a maximum acceptable level.

Rebecca Clutter of NARO Appalachia in written testimony questioned whether the panel has considered mineral owners as part of the debate on the bill, noting that the state itself is a large-scale mineral owner.

"On the surface, this issue is about a single corporation seeking to use recycled brine for use in road applications," she said. "The bigger issue is that the filtered brine kicks back Rare Earth Elements (RRE) from privately owned mineral sources. Specifically we are seeing a high degree of interest regarding Lithium filtered from not only brine, but from coal ponds as well."

"The responsibility to protect private property rights regarding mineral assets inclusive of REE's belongs to all of you," she said. "Our ask is that should brine be listed as a commodity, that it also be looked at from the perspective of how the mineral owner, including the State of Ohio, would be properly compensated and that discussions on this include mineral owners and not simply those tied to industry."

Adam Rissien of the Ohio Sierra Club offered written opponent testimony, saying the bill could lead to the contamination of rivers, streams and lakes.

He said the bill includes language that shows an intent to make brine waste safe for commercial use, but doesn't include direction that could prevent environmental- or health-related issues.

Mr. Rissien said the Ohio Department of Transportation doesn't have testing protocols or a process to ensure the safety of brine waste products, and isn't the right agency to protect natural resources or health.

Processed brine can continue to include heavy materials and radiologicals that could create unnecessary environmental risks, and said the bill doesn't include anything that ensures the safety of processed brine, he wrote. He also raised concerns about provisions that he said "egregiously" limit the authority of state officials to establish rules or additional requirements regarding the substance.

Robbin Rogers of Medina County Together also submitted written opponent testimony.

She said the oil and gas industry has worked to block environmental and health protections.

"Today you have an opportunity to take one step-not even a bold step against the fossil fuel industry-but an important step nonetheless," she said. "And it involves supporting a legislature that bucked the national trend and implemented changes to regulations concerning transporting, dispersing, and labeling of products originating or manufactured from fossil fuel brine."

HB 422 **WATER SEWER ACQUISITIONS (Ginter, T., Rogers, J.)** To govern acquisitions of municipal water-works and sewage disposal system companies by certain larger nonmunicipal water-works or sewage disposal system companies. (**CONTINUED**; 3rd Hearing-All testimony)

Daniel Shields, director of the analytical services department at the Ohio Consumers' Counsel, presented written opponent testimony.

"This concern includes that the bill would undermine the long-time protection of ratemaking statutes that Ohio utility consumers should not pay rates based on more than the original cost of acquiring utility plant (assets)," he said. "The use of original cost for ratemaking is fair

to utilities and to consumers, but the bill would redefine original cost in a way that can lead to higher rates for consumers."

Subscribers please note: Testimony is available on the [committee's website](#) under January 23.

HB 186

HIGHER EDUCATION EXPENSES (Rogers, J., Scherer, G.) To enact the "Blair Deduction" to allow an individual obtaining a post-secondary degree or credential from an eligible educational institution to claim an income tax deduction for qualified higher education expenses. (**CONTINUED**; 2nd Hearing-Proponent)

"The provision granting deductions for credentials earned by students will put money back in the pockets of Ohioans," said Daniel Palmer, chief justice of Wright State University's Student Government Association and executive director of the Ohio Student Government Association.

Mr. Palmer said he is concerned about how college students will be claimed as dependents and brought New Jersey's "Dependents Attending Colleges Exemption" to the committee's attention.

He recommended the committee consider including a similar exemption into the bill, which would grant taxpayers a \$1,000 flat deduction that pays at least one half of the "tuition and maintenance costs for a dependent full-time student under age 22," if certain requirements are met.

Mr. Palmer said the exemption saved New Jersey taxpayers \$10.5 million in 2017.

Rep. Blessing asked how this proposal could reduce costs in the long run for college students. If Ohio invests in this matter, the state's institutions will become more marketable which will pay off in the long run, Mr. Palmer said.

Morris W. Beverage Jr., president of Lakeland Community College said in written testimony that the proposal offers relief to Ohio graduates.

"The proposal to adjust the taxable income of recent graduates relative to their out of pocket Qualified Higher Education Expenses is a welcome consideration that recognizes the value of a student and family's investment in education and training, recognizing their struggles, and recognizing their desire to increase their ability to participate in and contribute to workforces and economic development in our state," Mr. Beverage said in testimony. In written testimony, Dave Wiles, president of CT Consultants, said the bill could help the company compete by expanding its base with high quality graduates in Ohio.

"I strongly believe that any incentive that can enhance the benefits of a post-secondary education, including any financial assistance to help graduates with their responsibilities towards repayment of their school loans, is not only good for our local, state and federal governments, but it is in the student's best interests towards becoming independent and responsible tax-paying citizens," Edward Brown, CFO and owner of the Brown Aveda Institutes, Casal Aveda Institute, and Ladies and Gentlemen Salon and Spas, said in written testimony.

HB 337 **COLLEGE TEXTBOOKS (Duffey, M.)** To exempt from sales and use tax textbooks purchased by post-secondary students. (CONTINUED; 3rd Hearing-All testimony)

"Eliminating the sales tax on textbooks will make the cost of obtaining a higher education more affordable, obtainable, and prove to be beneficial to the hundreds and thousands of students in Ohio," James Curtis, a student at Wright State University told the committee. According to the College Board, the annual cost of books and materials for students is \$1,168 and this cost is expected to grow if the textbook inflation rate continues, Mr. Curtis said.

Numerous polls have revealed the negative impact financial burdens, including rising textbook prices, can have on education, he explained.

Rep. Louis Blessing (R-Cincinnati) asked if the lower sales tax would raise demand and therefore the price of textbooks, resulting a situation where textbook prices remain high. Mr. Curtis replied that if demand increases, supply would follow.

Mr. Curtis told **Rep. Michael Henne** (R-Clayton) that increasing the use of online materials and encouraging faculty to be lenient on which editions of textbooks are required would also help to ease the financial burden of textbooks for students.

Mr. Curtis told **Rep. Craig Riedel** (R-Defiance) that the exemption would not apply to high schools that buy textbooks for College Credit Plus programs.

Rep. Tim Schaffer (R-Lancaster) asked if any student groups had appealed to publishers of these textbooks to inquire about the rising costs. There have been many initiatives and petitions to try to reach the publishers to little or no effect, Mr. Curtis replied.

In October, the Ohio Faculty Council voted on a resolution which established a set of approaches to reduce textbook costs for students in the state of Ohio, Dan Krane professor of biological sciences at Wright State University and chair of the Ohio Faculty Council, told the committee.

If fully implemented, the proposal would result in a savings of \$300 million annually, Mr. Krane said.

Many states already exempt textbook sales from their sales tax, giving those states a competitive advantage when trying to recruit students, he said.

Mr. Krane said he does not believe implementing a sales tax exemption would lead faculty members to choose textbooks that are not exempt for reasons regarding profit.

He told Rep. Blessing it is hard to tell how high the cost of textbooks would be if the states mentioned had not implemented sales tax exemptions. However, the sales tax exemption is third on the faculty council's list of initiatives to lower textbook costs and other proposals may be more impactful.

Mr. Krane said he is concerned about Ohio being at a competitive disadvantage to other state institutions for recruitment purposes, not necessarily for cross-border tax avoidance strategies.

He told Rep. Merrin that the exemption applies to any book required by a collegiate course syllabus in the state of Ohio. For companies like Amazon, there would need to be a mechanism to exempt the sales tax, he added.

LSC noted that if a student purchases a book online, the bill requires the student to provide the company with their address, the title of the academic course, name and address of the institution and the student's university identification card number, among other information.

(LSC Analysis)

Rep. Derek Merrin (R-Monclova Twp.) asked how it would be determined if a book is a required textbook. LSC noted that the bill restricts the exemption to books assigned by a course syllabus.

Rep. Bill Patmon (D-Cleveland) asked how the bill would work to help students over time, assuming textbook price inflation continues.

Governor Kasich inspired the faculty council's set of proposals to ease the financial burden on college students, Mr. Krane said.

"The textbook industry is a broken business model," Mr. Krane told the committee. To address the situation involving publishers and used booksellers, the faculty council recommends an "inclusive access" strategy, which calls for institutions to negotiate the price of books with publishers rather than leaving this to the students, he explained.

Rep. Patmon said he is concerned that there is no mechanism to prevent the increasing price inflation. Mr. Krane said he does not believe the sales tax exemption will fully address the problem, but the "inclusive access" provision of the faculty council's approach could.

Rep. Schaffer asked if the professor knew who benefits from the increasing textbook costs. Members of university faculty are not the leading beneficiaries, Mr. Krane explained as the author of a textbook himself. The publishers and the used booksellers are the "culprits," he added.

In response to Rep. Merrin's statement that professors have a tremendous power in choosing the latest and most expensive edition of textbooks, Mr. Krane replied that in the interest of academic freedom he does not believe this right should be infringed upon. However, as a professor he has experienced the games publishers play by only including online access codes on the latest editions, which contain necessary tools for the course, Mr. Krane added.

The faculty council is working diligently to find an incentive to encourage faculty to develop alternatives to expensive books, he told the committee.

Rep. Schaffer asked if there are anti-trust concerns in situations where faculty may ban together with publishers. Mr. Krane said it would be more likely to see this from the academic institutions. Nonetheless, the inclusive access strategy has been successful in Indiana and publishers have been open to the method, he explained.

HB 351 **MILITARY TAX EXEMPTION (Perales, R., Butler, J.)** To require municipal corporations to exempt from taxation the military pay of members of the commissioned corps of the National Oceanic and Atmospheric Administration and Public Health Service. **(CONTINUED; 3rd Hearing-All testimony)**

On behalf of the Ohio Council of Chapters Military Officers Association, Colonel John McCoy said in written testimony that the proposal to delete the terms "armed forces" and replace it with "uniformed services" from the code would have no fiscal impact to the state.

The change would extend benefits to Public Health Services and the Commissioned Corps of the National Oceanic and Atmospheric Administration which support other military services,

are subject to deployments, and react to national emergencies among other duties, Mr. McCoy said in testimony.

HB 392 **APIARY DAMAGES** (Stein, D.) To grant specified apiary owners immunity in personal injury or property damage cases. (**REPORTED (No testimony)**; 5th Hearing-All testimony-Possible vote)

Rep. Brigid Kelly (D-Cincinnati) and Rep. Alicia Reece (D-Cincinnati) voted against the measure.

HB 433 **VETERINARY EDUCATION** (Kelly, B., Brinkman, T.) To allow a licensed veterinarian to receive up to two continuing education credits per biennium for performing free spaying and neutering services. (**CONTINUED**; 1st Hearing-Sponsor)

Rep. Kelly (D-Cincinnati) said her bill is a common sense approach to enable veterinarians in Ohio to earn continuing education credit by performing free spaying and neutering services at a county humane society, dog pound or nonprofit.

For every hour spent providing these services, veterinarians would receive one-half hour credit of continuing education towards the annual requirement, she explained. Participating veterinarians could receive up to two hours of credit per renewal.

The goal of the bill is to responsibly curb the issue of pet overpopulation, Rep. Kelly said. The Humane Society of the United States successfully lobbied for similar bill in the state of New York in 2016, she added.

Rep. Kelly told Rep. Michele Lepore-Hagan (D-Youngstown) that the bill would not change the number of hours required for continuing education, rather it provides veterinarians the option to apply time spent volunteering to the credits.

Rep. Lepore-Hagan inquired if there was a need for the incentive. Co-Sponsor Rep. Tom Brinkman (R-Cincinnati) said the goal of the bill is to address the problem of overpopulated animal shelters while providing veterinarians with an incentive to volunteer their time rather than fulfilling their continuing education credits at a luxurious conference.

Many veterinarians are already donating their time to provide free spaying and neutering services, Rep. Kelly told the committee. This bill provides a practical incentive to continue to do so.

HB 444 **FOOD OPERATION FEES** (Sweeney, M.) To require a seasonal food service operation license fee to be one-half of the license fee for a food service operation that is not a seasonal food service operation. (**CONTINUED**; 1st Hearing-Sponsor)

Rep. Martin Sweeney (D-Cleveland) said his bill will allow for a separate food license for half of the year, in addition to the standard year-long operation license to accommodate seasonal food businesses.

"This legislation will allow these businesses to save a little bit of money on their license, which in turn, could be used to hire additional seasonal help," Rep. Sweeney said. "As the seasonal help at these types of businesses are often high school students, this will help instill a strong work ethic in even more young Ohioans throughout the state."

Rep. Sweeney told **Rep. Dick Stein** (R-Norwalk) that a food truck entity could apply for the seasonal license if it operated for less than six months out of the year.

Rep. Brinkman said he liked the idea of a seasonal operating license and wondered if it could apply to all types of seasonal businesses including entities like golf courses and hockey rinks.

The sponsor replied that the mentioned entities do not need to apply for a yearly license, but that he is open to the committee's feedback and suggestions.

Rep. Sweeney told **Rep. Thomas West** (D-Canton) that if a golf course has a seasonal food business, then that food business could apply for a seasonal permit.

Rep. Steven Arndt (R-Port Clinton) asked if the sponsor had considered the impacts on a county with a high density of seasonal workers. Rep. Sweeney replied that he had not but would work closely with the committee and representatives from those areas to address that issue.

Rep. Lepore-Hagan inquired how the funds would be supplemented with some revenue streams being cut in half. Rep. Sweeney replied that though the revenue stream would be eliminated, the change would have a minimal impact on the general fund of most counties to the great benefit of small, seasonal businesses.

HJR 4 **UNEMPLOYMENT COMPENSATION (Schuring, K.)** Proposing to enact Section 2t of Article VIII of the Constitution of the State of Ohio to allow the General Assembly to provide by law for the issuance of bonds to pay unemployment compensation benefits when the fund created for that purpose is or will be depleted or to repay outstanding advances made by the federal government to the unemployment compensation program. **(CONTINUED (No testimony); 9th Hearing-All testimony)**

HB 382 **UNEMPLOYMENT COMPENSATION (Schuring, K.)** To modify terms describing payments made under the Unemployment Compensation Law, to increase the amount of wages subject to unemployment compensation premiums, to require qualifying employees to make payments to the Unemployment Compensation Insurance Fund, to allow the Director of Job and Family Services to adjust maximum weekly benefit amounts, to reduce the maximum number of benefit weeks, and to make other changes to the Unemployment Compensation Law. **(CONTINUED (No testimony); 9th Hearing-All testimony)**

HB 410 **TRAFFIC VIOLATIONS (Seitz, B., Butler, J.)** To grant municipal and county courts original and exclusive jurisdiction over any civil action concerning a traffic law violation, to specify that the court require an advance

deposit for the filing of specified civil actions by the local authority bringing the civil action, and to modify the reporting requirements and LGF withholding that apply to subdivisions that operate traffic law photo-monitoring devices.

(CONTINUED; 3rd Hearing-All testimony)

Traffic safety activist Sharon Montgomery raised questions about the use of traffic cameras in interested party testimony.

One problem with red-light cameras is how they enforce legal right turns at red lights, she said. One solution is to eliminate the option at intersections with cameras.

The bill could solve procedural issues regarding traffic cameras by ensuring they go through the court system, she said.

Ms. Montgomery also raised questions about the revenue motive behind traffic cameras. She asked if the increased safety provided by the cameras balanced the revenue generated by them.

"What evidence is there that municipalities have installed cameras for revenue only?" she asked. "How do we determine motive? Why is it not okay to make money while also doing something good?"

Ms. Montgomery also cited evidence that red-light cameras reduce T-bone crashes but increase rear-end crashes, and said roundabouts have also been implemented to the same effect.

She suggested the legislature work to ensure cameras don't penalize legal actions and fix procedures for dealing with tickets, but that cities not be penalized for efforts to improve safety and generate revenue.

"Revenue challenges already exist for many, if not most, local governments," she said. "They have been asked to 'do more with less' and not to make up already existing reductions in state funding by increasing local taxes."

Rep. Bill Seitz (R-Cincinnati) asked Ms. Montgomery if municipalities were using revenue from traffic cameras on safety issues.

Ms. Montgomery said she was aware that the bill would require money to be spent on safety. Local governments, compared to the state, are often best positioned to ensure money is used effectively, she said.

Kent Scarrett, executive director of the Ohio Municipal League, wrote in opposition to the bill, saying it would create unnecessary burdens for municipalities in enforcing local safety regulations.

"The bill strips cities and villages of their right to use administrative hearings for civil citation issuance via traffic camera, which is an effective and financially-responsible means of providing a hearing process - particularly for Ohio's small villages, which are often understaffed and financially strained," he wrote.

The bill also re-litigates an issue already decided by the Ohio Supreme Court, Mr. Scarrett said.

A major concern he cited was that it would require municipalities to file an annual report with the tax commissioner and the municipality's local government fund disbursement would be reduced accordingly.

"Despite the Constitutional right municipalities have to operate traffic cameras, this bill seeks to punish those municipalities who use that right by further depleting the revenues they need to ensure safety and provide local services," he said.

HB 430 **ENERGY TAX EXEMPTION** (Schaffer, T.) To expand the scope of a sales and use tax exemption for certain kinds of property used in the production of oil and gas. (CONTINUED (No testimony); 3rd Hearing-All testimony-Possible vote)

HB 451 **PUBLIC RECORDS** (Retherford, W.) To exclude from the definition of public record under the Public Records Law any depiction by photograph, film, videotape, or digital, visual, or printed material of victims of crime under specified circumstances dealing with the victims' bodily privacy. (CONTINUED; 1st Hearing-Sponsor)

Sponsor **Rep. Wes Retherford** (R-Hamilton) said the bill is designed to protect victims in sexually oriented crimes, such as voyeurism, from having images submitted as evidence in a court case released as a public record.

"Ohio is a very open and transparent state and we have some of the most transparent public records laws in the country," he said. "Government transparency is key to an effective republic. However, ascertaining these photos, videos, images, etc. would have no effect on ensuring public protection through open records laws, instead would just lead to the potential of having an already violated individual become victimized again, when they should be focused on rebuilding in the aftermath."

The bill came from a conversation with police in Hamilton, who raised concerns that they would have to release compromising images if such records were requested.

"While this has not been, to the best of my knowledge, an issue yet, I believe that the proper thing for the General Assembly to do is to take a proactive approach to this issue," Rep. Retherford said. "Why should we wait for this to happen before we respond?"

HB 462 **HOSPITAL CLOSINGS** (Schuring, K., West, T.) To require that a for-profit hospital and its affiliated health care facilities in certain counties follow specified procedures before ceasing operations or closing, and to declare an emergency. (CONTINUED (No testimony); 2nd Hearing-All testimony)

Small Cell Wireless: Sponsor **Rep. Sarah LaTourette** (R-Chagrin Falls) testified in an informal hearing on a bill (**HB 478**) introduced Tuesday that deals with small cell wireless technology.

The technology - low-powered antennas attached to streetlights and poles that help upgrade wireless networks - was the subject of controversy when lawmakers included language in a bill last session (SB331, 131st General Assembly) allowing communication companies to install the antennas in municipal rights-of-way.

Municipalities filed lawsuits against the provision and courts found the law violated the Ohio Constitution's single subject rule. (See Gongwer Ohio Report, March 31, 2017)

"Rather than merely passing the same language as a standalone bill, we asked the wireless industry and the municipalities to see if they could resolve their differences, so we can pass a

law that will remove the uncertainty caused by the litigation and spur the investment and innovation as was originally intended," Rep. LaTourette said.

The bill creates uniform fees - a \$250 application fee for request and \$200 annual charge to attach to a municipally owned or controlled pole - and a process for obtaining permits. It also lays out approaches for municipalities to protect the aesthetic character of the right-of-way.

(LSC analysis)

Rep. LaTourette, who is sponsoring the bill alongside **Rep. Ryan Smith** (R-Bidwell), said the language stems from negotiations over the past three months with municipal officials, city engineers and representatives of the wireless industry.

"This was truly a collaborative effort and the participants should be commended for not only their hard work but also their willingness to negotiate a solution," she said. "The bill before you balances the industry's need to deploy small cells in a timely manner with municipalities' legitimate interest in protecting the aesthetic character of the public way."

Criminal Justice

HB 349 **POLICE ANIMALS (LaTourette, S.)** To increase the penalty for assaulting a police dog or horse and to include search and rescue dogs and horses in the prohibition against assaulting or harassing a police animal. **(CONTINUED-SUBSTITUTE; 2nd Hearing-Proponent-Possible substitute)**

Before hearing testimony, the panel accepted a **substitute bill** offered by Rep. Jeff Rezabek (R-Clayton) to restore existing penalties for assault on a police animal and to set the same penalties for assault on search and rescue animals. **(Comp doc)**

In proponent testimony, Dr. Robert Davis said search and rescue dogs and horses oftentimes encounter the same types of interference as experienced by police dogs and horses.

"Sometimes SAR teams enter private property either unknowingly or accompanied by law enforcement as part of the investigation," he said. "Although distinguishably marked, SAR animals may be subject to various actions by hostile property owners. It may also be the case that the subject of the search was not initially known to be a criminal actor and, when the SAR dog or horse makes contact with the subject, there is potential for harm."

Alice Ault of Miami Valley Mounted Search and Rescue said in proponent testimony that attacks on SAR animals have a high probability of resulting in serious injuries to humans.

"Injury occurs to the equestrian as the result of the equine falling onto the equestrian after it has been violently attacked," she said "This is one of the reasons horsemanship has been determined to be the most dangerous sport in the sports world. Some SAR equine can weigh more than twelve hundred pounds. Because of this, an equine falling onto a rider, as the result of a violent attack, can result in a multitude of traumatic injuries; the most serious, being paralysis or death."

Janelle Hideg of the Midwest K9 Search Unit also provided proponent testimony.

The panel also received written proponent testimony from Jerry Whaley of the Buckeye Emergency Response Training School.

HB 405 **COUNTERFEITING (Perales, R.)** To create the offense of counterfeiting and to include counterfeiting within the definition of "corrupt activity" under the

Corrupt Activities Law. (**REPORTED-AMENDED (No testimony)**; 3rd Hearing-Possible amendments & vote)

The bill was **amended** by Rep. Rezabek to clarify that someone in possession of five or more access devices faces up to a third-degree felony charge.

HB 409 **VETERAN TREATMENT (Butler, J., Perales, R.)** To permit courts to create veterans treatment courts and to allow courts to divert certain criminal defendants to participate in veterans treatment court. (**CONTINUED**; 2nd Hearing-Proponent)

Montgomery County Common Pleas Court Judge Dennis Adkins said the need for the legislation has drastically increased since Sept. 11, 2001.

During the War on Terror, he said, some veterans have been deployed overseas as many as nine times.

"Some are changed more than others. Some suffer from serious problems," Judge Adkins said.

Judge Adkins created a veterans' treatment court in 2013. He said it has proven to be successful with a lower recidivism rate than other specialized dockets.

"The numbers speak for themselves. We have been very successful," he said.

HB 439 **BAIL DETERMINATIONS (Dever, J., Ginter, T.)** To require courts to use the results of a validated risk assessment tool in bail determinations; to allow nonmonetary bail to be set; to require courts to collect certain data on bail, pretrial release, and sentencing; and to require the state Criminal Sentencing Commission to create a list of validated risk assessment tools and monitor the policies and procedures of courts in setting bail and utilizing pretrial supervision services. (**CONTINUED (See separate story)**; 2nd Hearing-Proponent & interested party)

HB 455 **DRUG TRAFFICKING (Wiggam, S.)** To provide that in determining the amount of cocaine for trafficking offenses, it also includes a compound, mixture, preparation, or substance containing cocaine, to increase penalties for certain drug trafficking offenses, and to name this act the Drug Trafficking Deterrence Act. (**CONTINUED**; 1st Hearing-Sponsor)

Under the measure, individuals charged with trafficking heroin, fentanyl, cocaine or other Scheduled I or II drugs would be charged with at least a third-degree felony that includes mandatory prison time.

"No longer will drug dealers be able to operate in this state with little fear of the law, and Ohio will draw a clear distinction in criminal penalties between trafficking and simply using illegal drugs," **Rep. Scott Wiggam** (R-Wooster) said in sponsor testimony.

Rep. Wiggam said that since 2012, Ohio has reduced the incarceration of drug traffickers by 4%, while at the same time, unintentional overdose deaths have increased by 212%.

"We are in a battle for the future of Ohio," he said. "Without deterring drugs from entering and being produced in the state, we are failing those who are currently addicted, and we are jeopardizing our state's future."

Rep. Rezabek questioned the impact the bill would have on the state's already overcrowded prison system, adding he has heard the figure could be as many as 8,000 beds - the equivalent of three maximum security prisons.

Rep. Wiggam disputed the figure, saying the deterrence impact could lead to a much smaller impact.

Rep. Rezabek also questioned whether the bill addresses the definition of trafficking, noting that some users carry scales to ensure that they are not being ripped off when purchasing drugs.

Rep. Wiggam said the bill currently does not address that issue, but he would be open to looking further into the matter.

HB 457 **DRUG TREATMENT (Antani, N.)** To require that an offender serving a community control sanction or a parolee who fails a drug test for heroin, fentanyl, or carfentanil be held in jail or admitted to a residential treatment program for up to 30 days. **(CONTINUED; 1st Hearing-Sponsor)**

Rep. Niraj Antani (R-Miamisburg) said the legislation was spurred by Scottie Childers, who failed a drug test during a probation check-in and died of an overdose four hours later. "Scottie's mother, Linda Chambers, was shocked that her son was able to walk out after testing positive. In this case, had Scottie been sent to jail, it would have saved his life," he said in sponsor testimony. "This bill will help protect and save the lives of individuals afflicted with substance abuse."

The bill would require individuals subject to community control or parole sanctions to be immediately sent to jail or a treatment facility if they test positive for heroin, fentanyl or carfentanil.

"I completely agree that those struggling with substance abuse should be treated as addicts who need treatment, and not as criminals. However, in current reality, we simply do not have enough residential treatment facilities for those who need it," he said.

"While we in the General Assembly must address that issue, we also must face where we are today in Ohio and the challenges that we are up against. While we are working on getting more treatment facilities, there has to be somewhere for individuals afflicted with substance abuse to go, and jail is the safest place for them."

Rep. John Rogers (D-Mentor-on-the-Lake) questioned why cocaine is not included in the bill.

Rep. Antani said he was trying to narrowly tailor the bill to lessen the impact on county jails. He added that the original charge has to have involved one of the drugs named in the bill.

HB 461 **HUMAN TRAFFICKING (Fedor, T., Galonski, T.)** To require a juvenile court to hold a delinquency complaint in abeyance if the court has reason to believe that the act charged might be prostitution related or that the child might be a victim of human trafficking and to provide that the same elements for the offense of trafficking in persons that apply to a victim under the age of sixteen also apply to a victim who is age sixteen or seventeen. **(SCHEDULED BUT NOT HEARD; 1st Hearing-Sponsor)**

The bill was pulled from the agenda at the sponsor's request.

Education & Career Readiness

HB 224 **SCHOOL FOODS (Ingram, C.)** To permit districts and schools to re-serve time- and temperature-controlled food items to students if items are unused and returned unopened, undamaged, and in the original packaging.
(CONTINUED; 2nd Hearing-Proponent & Interested party)

Rachel Tilford, food service director of Little Miami Schools and legislative chairperson for the School Nutrition Association of Ohio, said allowing food-sharing tables can benefit students who are food insecure.

However, the Department of Health currently requires any food remaining on sharing tables at the end of the day to be discarded, even if proper procedures are in place to safely store the food and keep it at proper temperatures.

Having to throw that food away results in about \$3,000 of waste annually in her district of 5,000 students alone, Ms. Tilford said.

"It is difficult to throw perfect good food in a garbage can. Try opening your refrigerator and tossing several dollars' worth of food into the trash," she said. "Staff have expressed concern that if people in our conservative community ever witnesses such waste that our department would be viewed negatively for wasting taxpayers' money and probably wind up as a scandalous media story."

She told Rep. John Patterson (D-Jefferson) that many schools face shortfalls in their food service budgets and use money from the general fund used for educational purposes to provide lunches.

While schools lose lunch profits on calamity days, they typically don't lose product because district food service workers can go to schools and freeze any items that won't keep while school is called off, Ms. Tilford said in response to a question from **Rep. Dan Ramos** (D-Lorain).

Rep. Theresa Gavarone (R-Bowling Green) questioned how schools keep cold items such as milk and yogurt at a safe temperature after they've been served. The witness said students typically don't have the items on their lunch trays for more than 15 minutes and then they're placed in insulated or temperature controlled storage that's monitored by a thermometer.

Jessica Shelly, food service director for Cincinnati Public Schools, also submitted written testimony in support of the bill. She said the school throws out an estimated \$500,000 in products each year that are paid for by the U.S. Department of Agriculture.

HB 438 **ESC BOARDS (Hambley, S., Kick, D.)** To permit the addition of appointed members to educational service center boards and to permit a local school district to sever its territory from one educational service center and annex that territory to an adjacent service center under specified conditions.
(CONTINUED; 1st Hearing-Sponsor)

Joint sponsor, **Rep. Steve Hambley** (R-Brunswick) said the bill aims to "increase member schools' participation in ESC governance and return choice to school districts whose hands were tied under previous law changes.

The measure allows the governing board of any single county ESC to add appointed members who represent client school districts of the service center that are not otherwise represented on the board, he said. Multi-county ESCs already have this ability. It also permits a local school district to sever its territory from one ESC and annex that territory to an adjacent ESC under certain conditions, joint sponsor **Rep. Darrell Kick** (R-Loudonville) said.

"Initial indications are that the only affected school districts would be Black River Local School District, and the five school districts in Sandusky County," he said, noting that the provision is permissive.

Responding to questions from the committee, Rep. Hambley said the Ohio Educational Service Center Association is supportive of the bill, which wouldn't allow appointed members to outnumber elected officials on boards.

Currently in the Black River Local School District, residents elect board members to an ESC they don't receive services from, which is what the bill is attempting to remedy, he said.

HB 442 **SCHOOL ATHLETICS (Antani, N.)** To authorize any student from a country or province outside the United States who attends an elementary or secondary school in Ohio and holds an F-1 visa to participate in interscholastic athletics at that school on the same basis as Ohio residents.
(CONTINUED; 1st Hearing-Sponsor)

Students who come to America on F-1 visas don't get a complete high school experience because they're currently not allowed to play sports, sponsoring Rep. Niraj Antani (R-Miamisburg) said.

"The Ohio High School Athletic Association and its members - around 85% of which are public high schools, paid for by taxpayers - arbitrarily decided several years ago that some international students, like exchange students who are here for a year on a J-1 visa, may play sports, but others, who may be here for four years on an F-1 visa, may not participate unless they meet specific criteria that are not applicable to the vast majority of students who receive an F-1 visa," he said.

He pointed to a 2015 comment from the OHSSA commissioner, who said that sports teach students life lessons, such as teamwork and commitment.

"Why would we want to deny a segment of students attending high school in Ohio from having these valuable experiences, just because of where they were born and the type of visa they have to legally attend school here?" Rep. Antani asked. "It is not something that our state government should let happen, especially when such rules are made by our public schools."

Rep. Ramos and Rep. Patterson raised concerns about recruiting athletes if the bill were to be approved.

"There has been concern that it's possible that students like this might congregate, some might use the term recruitment, in some particular schools and thus instead of a level playing field...it makes it harder for schools to compete," Rep. Patterson said.

Rep. Antani said it doesn't seem likely that schools would attempt to recruit students and there are OSHAA penalties in place for those that are caught doing so.

He suggested that private schools would only accept individuals who meet certain academic standards, which would make recruiting even more difficult.

By all accounts, students with J-1 visas, who are typically short-term foreign exchange students, aren't currently recruited despite being permitted to play OSHAA sports, Rep. Antani added.

HCR 11 **EDUCATION PLAN (Gavarone, T.)** To approve Ohio's state education plan for implementation of the federal Every Student Succeeds Act. (CONTINUED (No testimony); 2nd Hearing-All testimony)

Public Utilities

HB 143 **ELECTRIC COMPANIES (Sprague, R.)** To clarify the definition of "electric distribution company" for kilowatt-hour tax purposes. (CONTINUED; 1st Hearing-Sponsor)

Rep. Robert Sprague's bill would preserve the previously-granted exemption of self-generators from the kilowatt-hour tax when it comes to power distribution, according to the sponsor.

The bill, he argued, is necessary to ensure exemptions spelled out in a 2001 law are properly applied by the Ohio Department of Taxation. That bill (SB3, 123rd General Assembly) exempted self-generators from the tax but the sponsor said that in recent years, ODT has begun levying the tax on some entities that should qualify as self-generators.

"This specific issue has to do with the interpretation of language regarding the tax on the distribution of energy over the grid," he said. "Since 'self-generator' is not specifically defined under Ohio's tax code, the Ohio Department of Taxation is treating certain entities that fit under the Ohio Revised Code Section 4928.01 definition of a 'self-generator' as electric distribution companies."

A substitute version of the bill is forthcoming after continued talks with ODT and other parties, Rep. Sprague (R-Findlay) said.

"My hope is we will soon reach a consensus on the language issues, but, due to certain views on the original principle of the exemption, there will still be opposition," Rep. Sprague said. "My intention was and is not to address the principle of whether the exemption is right or wrong; it is to clarify the intentions of Senate Bill 3 from the 123rd General Assembly."

The sponsor told **Rep. Rick Perales** (R-Beavercreek) that "a lot of resistance" has been aired in interested party meetings over whether justification for the exemptions exists. "We're really not going to address that particular issue of the exemption," he said of the philosophical debate.

HB 247 **UTILITY LAW (Romanchuk, M.)** To require refunds to utility customers who have been improperly charged, to eliminate electric security plans and require all electric standard service offers to be delivered through market-rate offers, and to strengthen corporate separation requirements. (CONTINUED; 6th Hearing-All testimony)

Proponents continued pressing House lawmakers to support a bill to ban electric security plans over the objections of utility companies.

Tuesday marked the sixth hearing of the bill from **Rep. Mark Romanchuk** (R-Mansfield) which has been praised by consumer advocates as a way to bypass above-market riders levied on customers. But utilities remain staunchly opposed, arguing previously that MROs are less flexible and reduce competition. (See **Gongwer Ohio Report, December 12, 2017**) Ohio Consumers' Counsel Bruce Weston reiterated his support for the bill, echoing remarks he's made before in front of the committee. (See **Gongwer Ohio Report, November 14, 2017**)

"In short, you would be solving a lot of problems and doing a lot of good for Ohioans by reforming the 2008 law to eliminate electric security plans," Mr. Weston argued.

Ned Hill, an Ohio State University economist, agreed, criticizing the deal-making process in which utilities secure interested party support for ESPs through settlement agreement "carve outs."

"In a market-based economy markets should operate for the benefit of consumers, not for the benefit of companies," he said. "House Bill 247 will ensure that this remains true for electricity customers, and not just the few that are favored in special interest carve-outs in ESPs."

Barry Matchett, director of external affairs for NRG Energy, also voiced support for the bill, which he said contains "worthy policy goals" for Ohio consumers and large energy users.

"Let me also be clear that this is a compromise bill from the start," Mr. Matchett said. "I will admit there were many proposed items that my own company would have liked to have seen included in this legislation. But what you have before you is a solid base of reforms to protect and preserve the robust and developing energy market here in Ohio primarily to the benefit of customers."

Micah Derry, state director for Americans for Prosperity-Ohio, submitted written interested party testimony stating the legislation is a "natural step on the heels" of a House-passed bill to rework the renewable energy standards (**HB 114**).

"As it relates to HB247, we think the steps taken in the legislation to eliminate the Electricity Security Plans (ESP) are an encouraging provision, as this would largely preclude the ability of utilities to charge above-market rates to consumers," Mr. Derry wrote.

"It would also open the way for more pro-consumer competitive outcomes through the default adoption of the Market-Rate Offer (MRO) ratemaking mechanism, which is intrinsically competitive since it sets rates through a competitive bidding process," he continued.

HB 402 **TELEPHONE REGULATION (Hill, B.)** To revise state regulation of telephone companies. (**CONTINUED (See separate story)**; 2nd Hearing-Proponent)

Senate Activity for Tuesday, January 23, 2018

COMMITTEE HEARINGS

Health, Human Services & Medicaid

HB 145 **CONFIDENTIAL TREATMENT** (Huffman, S., Sprague, R.) To provide for the establishment of a confidential program for the treatment of certain impaired practitioners and to declare an emergency. (**REPORTED-AMENDED**; 4th Hearing -All testimony-Possible vote)

The committee voted unanimously to report the bill after accepting two amendments. The first amendment, offered by Chairman Sen. Dave Burke (R-Marysville), deals with the potential of a move of Medicaid long-term services and supports into managed care. That proposal was hotly debated in the budget, with the General Assembly putting a limit on the administration's plan to implement the move, and Gov. John Kasich vetoing the language. The issue was resolved when the Kasich administration announced it would not begin the move.

The amendment states that the General Assembly would have the final say in whether Medicaid can move long-term care services to managed care, said Sen. Scott Oelslager (R-N. Canton).

The other amendment includes language considered but tabled in December dealing with the move of the regulation of dieticians and respiratory care providers to the State Medical Board. (See Gongwer Ohio Report, December 5, 2017)

HB 286 **PALLIATIVE CARE** (LaTourette, S.) To create the Palliative Care and Quality of Life Interdisciplinary Council, to establish the Palliative Care Consumer and Professional Information and Education Program, and to require health care facilities to identify patients and residents who could benefit from palliative care. (**CONTINUED-AMENDED**; 1st Hearing-Sponsor & Possible amendments)

The committee accepted an amendment offered by Sen. Burke that adds exercise physiologists to list of experts that can be appointed to the interdisciplinary council, clarifies what non-hospice palliative care candidates may receive the service from a hospice facility, and makes technical corrections.

Sponsor Rep. Sarah LaTourette (R-Chagrin Falls) said the bill would create an interdisciplinary council and education program to raise awareness about palliative care. Palliative care, in which a patient's quality of life is improved by reducing symptoms, pain and stress by giving them more control, is appropriate at any point in an illness, not just at the end of life.

"Palliative care is appropriate at any age and at any stage of a serious illness, but when palliative care is mentioned many people do instantly think of 'hospice care' and the

conversation stops," she said. "Because of this, palliative care is drastically and disappointingly underutilized in our state."

The council would include members from fields that work closely with palliative care recipients, and would serve as an advisory council to the Department of Health," Rep. LaTourette said. "The bill also creates an education program to inform patients and medical providers about the care."

Sen. Bill Beagle (R-Tipp City) asked what the council's main objective would be.

The sponsor said education is important, because if people don't know about palliative care, they won't take advantage of it. The council would also be required to submit annual reports to the General Assembly.

HB 50 **EBT CARDS** (**Schaffer, T.**) To establish requirements for electronic benefit transfer cards issued under the Supplemental Nutrition Assistance Program. (CONTINUED (See separate story); 1st Hearing-Sponsor)

SB 110 **HEALTH CARE IDENTIFICATION** (**Tavares, C.**) To require a health care professional to wear identification when providing care or treatment in the presence of a patient. (CONTINUED; 1st Hearing-Sponsor)

The bill would require certain health care professionals to wear an identification card, badge or similar device, including a photograph, when providing care, sponsor **Sen. Charleta B. Tavares** (D-Columbus) said. The badge would be required to include the person's licensure status and staff position.

"Without this legislation it is all too easy for patients to confuse who is and is not a licensed health care professional," she said. "It is also very easy for unlicensed or unqualified individuals to administer care to unaware patients. The misrepresentation of the level of training held by health care professionals is dangerous and can result in the loss of a loved one's life."

The sponsor detailed the story of a patient in South Carolina who ultimately died from complications from a pain reliever after surgery and whose mother repeatedly asked for a veteran physician at the hospital to examine him, but was only met by residents.

"It is vital that health care professionals are required to wear identification of who they are and what their level of training is in order to insure the utmost level of transparency between patients and health professionals," she said.

Sen. Peggy Lehner (R-Kettering) asked the sponsor if she has checked with hospitals to see if it is already in practice.

Sen. Tavares said she didn't know how common of a practice it is, particularly in smaller hospital systems and practices.

Sen. Edna Brown (D-Toledo) said many people wear badges backwards, and suggested that the requirement be that the name and status be visible.

That's the intent of the bill, Sen. Tavares said, but it could be made explicit in the bill.

SB 192 **AWARENESS WEEK** (**Tavares, C.**) To designate the last week of September as "Diaper Need Awareness Week." (CONTINUED; 1st Hearing-Sponsor)

Sen. Tavares said her bill would designate the final week of September as Diaper Need Awareness Week, focusing on the need by low-income families of diapers and to rally support for diaper bank programs.

"Children in low-income families are at the greatest risk of suffering the effects of diaper need because many families cannot afford diapers," she said. "Current public support programs help some, but young children have additional needs necessary to build a strong foundation for healthy growth. More awareness needs to be brought to such a critical but oftentimes overlooked necessity for Ohio families."

Temporary Assistance for Needy Families is the only federal program that can cover diapers, and families are often forced to choose between diapers and other services TANF covers, such as heat, electric, rent, clothing and transportation, Sen. Tavares said.

"This bill is simply meant to bring attention to this important need and to encourage those of us with a little extra to donate to the Diaper Banks in our communities or to start them," she said.

Insurance & Financial Institutions

HB 362 **HPRS RETIREMENT (Carfagna, R., Ramos, D.)** To revise the law governing the State Highway Patrol Retirement System. (**CONTINUED**; 2nd Hearing-All testimony)

Mark Atkeson, executive director of the Ohio Highway Patrol Retirement System, said the bill would help the pension fund ensure continued solvency.

The bill would return the minimum retirement age to 52 for new hires after Jan. 1, 2020, calculate pension benefits for off-duty disabilities based on a minimum 12-year service benefit instead of 20 years, and eliminate the automatic 50% unfunded survivor benefit, creating a set amount of \$900, increasing annually as the board determines.

The measure would also provide no survivor benefits for those who marry after retirement.

"These changes reduce the amortization period of our unfunded actuarial accrued liabilities by several years, and when these changes are fully realized, they will have a compounding cumulative effect on reducing our unfunded liabilities," he said. "In addition, these are considered best practices and are consistent with other similar systems."

Robert Booker, president of the Ohio Highway Patrol Retirees' Association, said the changes are needed to ensure the system's long-term health.

"Like with other pension systems, our system continues to face actuarial assumption changes that have not been seen before," he said. "Probably, the most significant change was the reduction of the investment assumed rate of return. These assumption changes increase the unfunded actuarial accrued liabilities of a pension system. The legislative changes the HPRS board has approved are necessary and will decrease the amortization period of the system's unfunded actuarial accrued liabilities by several years, thus improving its solvency."

In written testimony, HPRS Board member Matt Them voiced support for the proposal.

"I realize no one wants to see any change in benefits, myself included, but this legislation is in the best interest of the retirement system and its long-term solvency," he said. "Thus, in the long-run, a solvent and well-funded system will benefit all of us individually."

Chairman Sen. Jay Hottinger (R-Newark) said he hopes to vote the bill out of the committee next week.

SB 227 **HEALTH PLAN CLAIMS** (Huffman, M.) To require health plan issuers to release certain claim information to group plan policyholders. (**CONTINUED (See separate story)**; 3rd Hearing-Opponent & interested party)

Government Oversight & Reform

SJR 5 **CONGRESSIONAL REDISTRICTING** (Huffman, M.) To establish a process for congressional redistricting. (**CONTINUED (See separate story)**; 1st Hearing-All testimony)

STATE MIGHT SEEK \$19M MORE BACK FROM CLOSED CHARTER E-SCHOOL

The giant Ohio online charter school that abruptly closed mid-school-year lost another round of its multifaceted battle with the state over funding but said Tuesday that it's still fighting to reopen, even as many of its 12,000 students are looking for new schools.

LAWYERS: JURIES, NOT JUDGES, SHOULD IMPOSE DEATH SENTENCES

Ohio's capital punishment law is unconstitutional because judges, not juries, impose death sentences in contrast to the 6th Amendment right to a jury trial, lawyers for a convicted killer argued before the state Supreme Court on Tuesday.

DEMOCRATS TUSSLE OVER ECOT CAMPAIGN MONEY, BUT GOP GOT FAR MORE

As Ohio's big bet on a big online charter school fizzles, candidates are pointing fingers over the \$2.1 million in campaign money the school's operator has doled out during the past two decades.

COLUMBUS LAWMAKER'S PROPOSAL WOULD ALLOW PHYSICIAN-ASSISTED SUICIDE IN OHIO

Lisa Vigil Schattinger wants terminally ill Ohioans to have the option chosen by her stepfather, who said his piece and then made peace with impending death from bone marrow cancer.

GOP LAWMAKERS, CHRISTIAN ALLIANCE, DEFEND ECOT; STATE SAYS SCHOOL PRIORITIZED PROFIT

Arguing that that Gov. John Kasich and the Ohio Department of Education should have kept ECOT open through the end of the school year, a handful of Republican lawmakers Tuesday defended the school and urged changes to stop a future shutdown in the middle of the school year.

RIGHT-TO-WORK WOULD HELP OHIO WORKERS, GOP LAWMAKERS SAY

A pair of Republican lawmakers said their proposal to put six right-to-work amendments on the 2020 ballot would help Ohio workers.

LAWMAKERS TAKE BABY STEPS TOWARD REDISTRICTING COMPROMISE

A whiff of progress on congressional redistricting could be permeating the Statehouse.

O'NEILL TELLS DEMOCRATIC PARTY TO VET HIM AFTER PAYING OFF TAX LIENS

Gubernatorial candidate William M. O'Neill is asking the Ohio Democratic Party to vet him after paying \$4,361 in past-due state income taxes.

Farm and Dairy: Ohio Cattlemen's Association honors family farms

Ohio Rep. Brian Hill received the association's Industry Service Award. Hill, a longtime association member, raises beef cattle on his family farm in Muskingum County, and is currently serving his third term in the Ohio House of Representatives, after serving as a county commissioner for more than six years. ... "It's easy to go to Columbus to fight on your behalf," Hill told the cattlemen Saturday night.

Columbus Dispatch: State lawmakers vote to regulate 'e-bikes'

House Bill 250, introduced by Rep. Tom Brinkman, a Cincinnati-area Republican, would regulate electric bicycles, also called e-bikes, and hold them to many of the same standards as normal bicycles. ... "This new technology in e-bikes will allow more Ohioans to use our wonderful trail network, longer and later in life," Brinkman said.

Dayton Daily News: New bill calls for more transparency in drug prices

"Action is needed to address the rising prescription drug prices to protect Ohio consumers," said state Rep. Scott Lipps, R-Franklin, one of the sponsors of House Bill 479. "Prescription drug pricing in its supply chain is complex and broke and needs to be scrutinized."

Alliance Review: State Rep. Christina Hagan shows support for emergency personnel

"I am honored to discuss legislative matters impacting our community leaders and safety services, and to work toward solutions with the Ohio Fire Chiefs' Association," said Hagan. "I'm thankful for the daily sacrifices of all our Ohio firefighters and first responders."

WHAM: Mom pushes for change after 3 year old denied heart transplant due to Down syndrome

Miamisburg Representative Niraj Antani (R-District 42) is a primary sponsor of the bill and said, "They're told that they won't be able to follow the post operation regimen, their body won't be able to handle it, or that its implied that their life is less worthy and that's wrong."

Sandusky Register: State bill aims to plug orphan wells

"As the representative of a district that is very concerned with the harmful effects of human activity on the environment ... I was proud to co-sponsor House Bill 225," Arndt said. "This legislation will help homeowners that discover abandoned orphan wells on their properties to properly address them."

My Town NEO: Hudson boys cross country team recognized by Roegner, LaRose

"It takes a lot of hard work and dedication to win a state title," Roegner said. "Our Hudson Boys Cross Country Team won the Division I State Championship through steadfast dedication. With an average 3.99 GPA, they are incredible student athletes and have earned the admiration of the state of Ohio."

Columbus Dispatch: Ohio lawmakers going after pharmacy benefit managers

Reps. Scott Lipps, R-Franklin, and Thomas West, D-Canton, say pharmacy benefit management companies (PBMs) are issuing "gag orders" to keep pharmacists quiet about what could be cheaper medicines for their clients, and keeping the extra money for themselves — something the lawmakers hope to ban with new legislation, House Bill 479.

WKSU: Conservative lawmakers renew their push for Ohio to become a right-to-work state

Reps. John Becker and Craig Riedel say their bill would allow voters to decide whether Ohio should be a right-to-work state for public and private sector employees and would put limits on unions to collect dues and spend money on political ads. Riedel says Ohioans should decide this issue, once and for all.

Marion Online: Riordan McClain sworn in as State Representative of the 87th Ohio House District

"Riordan McClain's experience in the private sector and financial management will surely prove to be a valuable asset to our caucus," said Speaker Cliff Rosenberger (R-Clarksville). ... "I accept this appointment and will be honored to serve Ohio's 87th House District as state representative. I am appreciative of all the support that I've received through this process and look to carry that forward into a successful term representing our shared values," said McClain.
